# Transfer Bonds

Transfer Bonds are a service that Palmetto Surety Corporation is happy to offer it's agents. The Agent Services Department is always available to assist with setting up a Transfer Bond with the state of South Carolina.

Once someone is found to write the bond, we ask that they notify us when it is posted, providing us with the power number of the bond. Agent Services then notifies the person that requested the bond that it was posted.

This communication is essential for a timely Transfer Bond execution. A delay with any of the information could cause a delay with payment.
